

VISION PAYMENT SOLUTIONS

TURNKEY SOLUTIONS FOR YOUR SPECIALTY LEASING PROGRAM

VISION PAYMENT SOLUTIONS

OVERVIEW

Vision Payment Solutions (VPS) offers a unique, collaborative, end-to-end solution for the property owner, leasing manager, and tenant. The VPS OnePay system is a fully integrated specialty retail management system that includes:

- A sophisticated cash register with built-in POS
- Credit/debit and gift card processing
- Check processing
- Sales tracking
- Real-time tenant reporting

TENANT BENEFITS

Easy Setup: Our web interface provides fast, remote customization of the system by the merchant, including cashiers, price lookups, and discounts.

Online History: Complete transaction history available with online receipt retrieval from any internet connection. Easily handles reprints and resolves disputes from anywhere.

Advanced Reports: Viewing and downloading comprehensive reports from any internet connection makes OnePay both a strategic and operational tool.

No Long-Term Contracts: All services are aligned to the term of the lease.

Saves Time and Money: OnePay provides turnkey startup, and saves the cost and hassle of purchasing and integrating a stand alone register, software, and services.
